Geothermal Resources Development Account (GRDA)	The funds from this account come from revenues paid by geothermal developers for leases on federal land in California. Practically all aspects of geothermal research, resource development, demonstration, commercialization, planning, environmental enhancement and impact mitigation are eligible for funding.	Grant	Private entities, including individuals and private for-profit organizations; local jurisdictions including cities, counties, school districts and special districts, regional planning agencies, and public utility districts; EXCEPTION: any public utility that generates more than 50MW of electricity for sale is not eligible to apply	Solicitations are generally offered every other year. A solicitation is planned for 2014. The latest solicitation was held in May 2014, with a Notice of Proposed Awards issued in August 2014.	Approximately \$3 million available per solicitation. There is no maximum or minimum award level established. Awards vary according to the application requests and the amount of funds available during a specific solicitation. In general, approximately \$3 million is available per solicitation. Electric Program Investment Charge (EPIC)	The Energy Commission is one of four administrators of energy innovation funded by the Electric Program Investment Charge. The other administrators are the state's three largest investor-owned utilities: Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company. The Electric Program Investment Charge was created to fund public interest investments in clean energy technologies and approaches for the benefit of electricity ratepayers of California's three largest electric investor-owned utilities.	Grant	Public entities, educational facilities, private entities, research organizations, national laboratories.	A solicitation shedule has been posted on the Energy Commission Research page, and solicitations will be issued starting early 2014.	Funding will vary, but project funding levels are expected to range between \$250,000 and \$5 million.	The California Public Utilities Commission established the purposes and governance for the Electric Program Investment Charge in Decision 12-05-037 for Rulemaking 11-10-003 on May 24, 2012.	\$159 million approved in FY 13/14 and \$172.5 million in FY 14/15.	\$70 million.	http://www.energy.ca.gov/research/epic/ Contact: Mike Gravely Mike.Gravely@energy.ca.gov 916-327-1370
Public Interest Energy Research (PIER) - Natural Gas Funding	The funds are collected from natural gas ratepayers of California Investor Owned Utilities. These funds are administered by the California Energy Commission to provide public interest natural gas research programs. The Energy Commission's PIER program supports energy related research, development and demonstration for research not adequately provided by competitive and regulated markets and that will advance science and technology and will help meet California's energy policy goals.	Grant	Public entities, educational facilities, private entities, research organizations, national laboratories.	Periodic solicitations	Varies depending on solicitation. Recent solicitations have accepted awards up to \$2 million.	SB 1250 (Perata) Chapter 512, Statutes of 2006. California Forest Improvement Program (CFIP) Fuels Reduction	The California Forest Improvement Program (CFIP) is a forestry incentive program (cost share) that provides funds to forest landowners for management plans, RPF supervision, site preparation, tree planting, thinning, pruning, follow-up, release, land conservation, and improvement of fish and wildlife habitat. CFIP's purpose is to encourage private and public investments in forestlands and resources within the state to ensure adequate future high quality timber supplies, related employment and other economic benefits, and to protect, maintain, and enhance the forest resource for the benefit of present and future generations.	Grant (cost share) with landowners responsible for as little as 10% of project cap rate costs	Landowners with more than 20 acres but less than 5000 acres of forestland	Continuous	Minimum acres 5, maximum \$50,000 to \$100,000 for reforestation projects	Various federal sources, General Fund, and Greenhouse Gas Reduction Fund	To be announced	To be announced	http://calfire.ca.gov/resource_mgt/resource_mgt_fo_restryassistance_cfip.php Contact: Stephen Smith stephen.smith@fire.ca.gov
Forest Legacy Program (FLP)	The purpose of the Forest Legacy Program (FLP) is to protect environmentally important forestland threatened with conversion to non-forest uses, such as subdivisions for residential or commercial development. To help maintain the integrity and traditional uses of private forestlands the FLP promotes the use of permanent conservation easements. The program is entirely voluntary. Landowners who wish to participate may sell or transfer particular rights, such as the right to develop the property or to allow public access, while retaining ownership of the property and the right to use it in any way consistent with the terms of the easement. The agency or organization holding the easement is responsible for managing the rights it acquires and for monitoring compliance by the landowner. Forest management activities, including timber harvesting, hunting, fishing, and hiking are encouraged provided they are consistent with the program's purpose.	Grant	Scope: Forestlands Applicants: Landowners	Continuous but must be in before July 30 for the next available federal funding cycle	\$7 million	Federal Forest Legacy Program and the Greenhouse Gas Reduction Fund	Federal is renewed each year as funding varies via federal budget process. Watershed Reforestation and Restoration	Greenhouse Gas Reduction Fund grants for large scale reforestation and watershed restoration resulting from catastrophic wildfire or other catastrophic events. Projects include site preparation, seedlings production, planting forest trees, maintaining seedlings (release), thinning for wildfire fuel reduction, and utilization of biomass. Tree growth results in removing carbon dioxide and storing the carbon in trees. Will also reduce potential greenhouse gas emission from wildfires, stabilize forest carbon stocks through improved forest health and forest resilience, and reduce damage to carbon stocks.	Grant	Scope: Forestland. Applicants: Native American Tribes, non-federal agencies, or 501 c (3) nonprofit organizations. Land Acquisition Program	Statewide - This program acquires real property or rights in real property on behalf of the Department of Fish and Game (DFG) and also awards grants to other governmental entities or nonprofit organizations to acquire real property or rights in real property. All acquisitions are made on a "willing seller" basis pursuant to the appraised fair market value. The acquisition activities are carried out in conjunction with the DFG, which generally entails DFG evaluating the biological values of the property through development of a Land Acquisition Evaluation (LAE, used for a single piece of property) or a Conceptual Area Protection Plan (CAPP, used for multiple properties). Once these evaluations are completed, they are submitted to DFG's Regional Operations Committee for review and approval. If approved, they are sent to WCB with a recommendation to fund. Concurrently, the WCB meets with DFG to evaluate and set acquisition priorities as new opportunities arise.
